

The **Kingston K-14 Early Childhood Special Education Program (ECSE)** offers the opportunity for a number of 3 and 4 year olds to participate in an academic program. Learning occurs through hands on activities and play using the Project Construct Curriculum. (<http://www.projectconstruct.org/GuidingPrinciples.html>).

Special education services are offered to address cognitive, physical, adaptive and communication delays. Preschool screenings are offered in the spring of each year as well as through our Parents as Teachers (PAT) program. Children with suspected delays are screened to determine if additional assessments are needed and possible entry into the program.

Our program is a full day program that runs Monday through Thursday each week. Bus services are provided in the morning and the afternoon on a modified route. To qualify for our program children must turn 3 years old by August 1.
